City Council

The regular meeting of the city council was held on Tuesday evening. Present: Mayor Skoloda and Aldermen Chandler, Montgomery, Raybould, Gould.

Minutes of last meeting read and adopted.

The question of real estate licenses was gone into at some length when it was moved by Gould-Montgomery, that the petition from the real estate agents be laid on the table.—Carried unanimously.

Mr. Taylor, the engineer, addressed the council at length, pointing out that he was placed in an unfavorable light in the eyes of the ratepayers on account of goods not being ordered as promptly as required. He was held responsible for the financial results of the electric light department and thought the council and ratepayers should know the condition of affairs.

Raybould-Montgomery, that 3-wire 25 meters be ordered, as required by Mr. Taylor.—Carried.

Gould-Chandler, that a carload of pea coal be ordered from C. S. Lott of Benhead.—Carried unanimously.

The health committee reported that a site had not been selected for the hospital. The mayor stated that 10 acres of the south end of the agricultural grounds were taken of. Dr. Robertson, the health officer, addressed the council on the question of a hospital. He did not know what the council proposed doing, but thought that the city would not be warranted in building an isolation hospital. There was great need for a general hospital, and suggested that this be obtained as soon as possible. Although it is not necessary a question for the municipality alone isolation wards could be reserved for the use of the city. It is necessary to get the ladies interested to make a success of it.

Mr. Horslip stated that the hospital would have to be built here in the near future.

In response to a query by Ald. Montgomery, the doctor said it was desirable to procure a suitable house for cases of contagious diseases during the coming winter.

The doctor suggested that the mayor call a public meeting to talk the matter over and ascertain if some arrangement could be made for its maintenance. His worship stated that the public would agree on anything at a public meeting and afterwards leave you in the lurch.

His Worship said the meeting would be called in two or three weeks to talk the matter over.

Dr. Robertson reported that two or three families in the east side had had diphtheria in their houses and that they were not reported on or quarantined. He said emphatically that an example should be made of such cases as the danger to the public was too great. The health committee was instructed to prosecute such cases if discovered.

It was then moved by Montgomery-Raybould, that Mr. Taylor be relieved of any responsibility in the event of any loss through meters and wire not coming to hand caused by delay in ordering.—Carried unanimously.

Chandler Gould, that a clock to the value of \$10 be purchased from C. C. Bailey for use in the fire hall.—Carried unanimously.

The mayor pointed out that the council was saving money by having the sidewalks laid by the labor as the work in front of the Oxbow property did not cost as much as the tenders asked for some time ago.

Montgomery-Gould, that the orders given by Mr. Taylor for meters, wire and coal be confirmed.—Carried unanimously.

Ald. Raybould wanted to know what was being done regarding chimney cleaning. Ald. Montgomery suggested that the council purchase a few gross of soot destroyers and have them distributed among the houses, but the mayor thought this illegal, as it was not in the jurisdiction of the council to purchase anything and give it away. In the States and

all over Europe the chimneys were compelled to be swept and they should be swept out at least twice a year, but it was impossible to have it enforced, as the cattle by-law, barbed wire fence bylaw and others were not enforced and this one would not be either after the passing of a few small accounts the meeting adjourned.

Town Topics

It should be of interest to the people of Wetaskiwin to know that five teachers from Wetaskiwin and that District are on the Edmonton teaching staff. Mr. Scott B. A. and Miss Swarbrick B. A. were appointed at the beginning of the year, while Miss Lillian Thomas, Miss Brown and Miss Bunge were appointed at mid-summer.

The Annual Teachers Convention of the Red Deer Inspectorate will be held in Olds on Thursday and Friday, 27th and 28th of September beginning at 2:30 in the afternoon of the first day. A good programme is in course of preparation.

Geo. L. Owen has purchased the lot just east of his second hand store and is having a large sale and exchange barn for a horse market erected thereon. Auction sales will be conducted every Saturday.

Referring to a former resident of Wetaskiwin, the Saskatoon Phoenix says: "The school board has secured the services of Mr. H. G. Irvine, late of Wetaskiwin, Alta., to take the position of principal in the Saskatoon schools. Mr. Irvine arrived in town yesterday and this morning commenced his duties. He comes to Saskatoon with very high recommendations and the Board members believe that they have secured a thoroughly efficient man."

Mrs. Thomas E. Wilcox will open an up-to-date millinery store in Dayland on or about October 1st. See her advertisement elsewhere in this issue.

T. J. Farley, of Lloydminster, spent Monday last in the city shaking hands with his many friends and transacting business. He says that the new town is growing apace and that business is brisk.

Stacking and threshing is the order of the day at present. The yield of grain where any threshing has been done is well up to the average as to quantity and the quality is first class. Actual figures as to yield are not available yet as threshing has just begun.

Alf. A. Ellis, representing the Wetaskiwin Produce Co., has just returned from a most successful business trip to B. C., where he has secured good business connections. He will now pay the highest cash price for grain, hay, produce, hogs, beef, etc. His warehouse will be at the rear of the Imperial Bank.

Mr. Hord of Yarmouth N. S. was in the city a few days this week the guest of his uncle, F. P. Spencer. He left on Wednesday morning enroute home.

Mrs. L. G. Gleason met with a very painful accident last Thursday evening by falling through a passageway into the cellar. Fortunately no bones were broken but she was badly shaken up. She is doing as nicely as can be expected.

Mrs. L. G. Gleason met with a very painful accident last Thursday evening by falling through a passageway into the cellar. Fortunately no bones were broken but she was badly shaken up. She is doing as nicely as can be expected.

Meers Geo. B. Hemmick and W. Forbes, were at the Capital this week on professional business.

A. S. Brown, M.P.P., left on Friday last for Winnipeg in company with his daughter, who intends to enter one of the institutes there to commence a course of studies. He will be absent three or four weeks.

Rev. Mr. Dorey brought into The Times office a well formed pig that weighed 2 lbs. 2 oz. It was of the Early Rose variety, and Mr. Dorey says he found it in the hill about half as large. N.Y.

Chas. H. Olin made a business trip to Calgary this week. He called upon his old friend John Tyson, who was seriously injured near Duhamel a few weeks ago, and regrets to announce that little or no hope is entertained for his recovery.

The final payment for the May ma's of butter at the creamery was made last week. The patrons received 14¢ as compared with 13¢ 2/3 a year ago.

NEW BUTTERICK PATTERNS FOR OCTOBERS

Compton & Montgomery

E. J. Doherty of Calgary is a new acquaintance in the city this week.

Mrs. J. W. Horie, of Strome, was a new acquaintance in the city since last issue.

W. I. Atkinson returned last week from a pleasure holiday trip to Winnipeg and other places.

Thos. Willows left on Monday last for the coast, to be present at a very critical surgical operation upon one of his sons. He expects to be absent three weeks.

Mrs. L. O. Hooper returned on Wednesday from a trip to the Coast.

Popular Wetaskiwin Girl Married

A very pretty, but quite wedding took place at the Holy Rosary Church, Detroit, Mich., last Monday, Sept. 17, 1906, when Miss Marie Teresa Barrett, daughter of Mr. and Mrs. T. J. Barrett, of this city, was united in holy matrimony to Thos. L. Ryan, M. D., of Saginaw, Mich. The ceremony being performed by Rev. Father Van Antwerp.

The bride wore a pretty gown of navy blue broadcloth with lace to match, and was attended by Miss Monica Achagon, of Detroit, while Mr. Daniel D. Daly, also of Detroit, acted the groom.

Miss Barrett was one of Wetaskiwin's most popular young ladies and her host of friends here join in extending the heartiest congratulations and good wishes.

Mr. and Mrs. Ryan left for Saginaw, where they will be at home to their friends at 313 South Sixth St. after Oct. 15.

Church Chimes

Rev. Jno. Griffith, B. D., who is here on furlough from his Mission Field in Chang Te Fu, China, will deliver an address on chimes, in the Presbyterian Church, here on Friday evening of this week at 8 o'clock. This promises to be an interesting and instructive evening. All are welcome.

Rheumatism is not incurable. Stubborn? Yes. But Dr. Shoop's Rheumatic Remedy will if faithfully used drive it out of the system. It's the blood that's at fault. Poisonous crystals like sand get into the joints and muscles. Dr. Shoop's Rheumatic Remedy prevents this. It drives rheumatism from the blood and then rheumatism dies. We recommend and sell it. Red Cross Pharmacy, H. L. Higgs, proprietor.

Farmers are patiently waiting the coming of the threshing machines.

Correspondents.

Killam
The lumber famine has been
raised at last and building is ad-
vancing rapidly.

A. R. Forsythe & Co. are put-
ting up a fine two storey building
under the supervision of E. Mc-
Gowan.

J. H. Ogilby's store is rapidly
nearing completion.

The W. R. McGowan Co., our
pushing Messey-Harris agents and
lumber dealers, are busy erecting
an office.

Farmers are patiently waiting
the coming of the threshing ma-
chines.

A bad fire northwest of town did
serious damage to the extent of
sweeping out Mr. Dalms, Mr.
Simp and Mr. Rancier's stables
and hay. It was brought under
control by the great exertions of a
few. A young homesteader burn-
ing a fire guard and the wind rais-
ing after he had left it was the
cause. This is the second fire we
have had this fall already.

Jas. T. Battray is busy painting
and plastering his residence. Evi-
dence of great expectations of our
golden west.

The management of the hotel
has been taken over by Messrs.
Kral and Stevenson who are giv-
ing it a thorough going over before
winter sets in.

We are pleased to hear of Mrs.
R. J. McGowan getting around
after her serious illness.

Sunday, Sept. 9th, we had the
pleasure of hearing Mr. and Mrs.
Wold in connection with the Bap-
tist church.

What is the matter with the
school? Lack of the required
number of pupils is entirely out of
the question now.

A church picnic passed off very
successfully on the 6th. Lack of
sufficient amusement was most
noticeable.

Foundations have been laid for
a station and a section house.

The post office at Daysland is
helping considerable but a post
office at Killam will be much more
appreciated.

Earling News
Sunday last was another event-
ful day. All the young men Sun-
dayed at Ole Anderson's place.

IF WOMEN

ONLY KNEW

Thousands of women suffer untold mis-
ery every day with aching backs that really
have no business to ache. A woman's back
needs to be made to ache. Under ordinary
conditions it ought to be strong and ready
to help her bear the burden of life.

It is hard to do housework with an aching
back. Hours of misery as leisure or
at work. If women only knew the cause.
Backache comes from sick kidneys, and
what a lot of trouble sick kidneys cause in the
world.

But they can't help it. If there work is
put on them that they can stand it's not
to be wondered that they get out of order.
Backache is simply their cry for help.

DOAN'S

KIDNEY

PILLS

Will help you. They're helping sick, over-
worked kidneys—all over the world—
making them strong, healthy and vigorous.
Mrs. F. Ryan, Douglas, Ont., writes: "For
over five months I was troubled with lame
back and unable to move without
help. I tried all kinds of plasters and
liniments but they were no use. At last I
heard of Doan's Kidney Pills and
after I had used three-quarters of the box
my back was as strong and well as ever."

New Land Titles act is now in Force

A proclamation appeared in a special issue of the Alberta Gazette last Saturday evening, laying down the new Land Titles Act of Alberta. This is one of the most important acts passed at the first session of the Alberta Legislature, superseding as it does the Dominion Land Titles Act of 1904, which has been in force here since that year but which has now been repealed by an ordinance of the provincial government.

The provincial government will henceforth be in charge of the land registration office in the province and steps will immediately be taken looking towards the more expeditious handling of the business of the office. The new act makes not a few changes of considerable importance in the present law relating to the holding and transfer of land. The system heretofore adopted by large corporations of holding a large block of land under one certificate of title will now be under the new act one certificate of title may include or refer to more than six hundred and forty acres. No fee certificate of title will hereafter be issued to railway corporations and other concessionaries of land grants as was done under the old system, this privilege being left to the new act restricted to homesteads and holders of half-breed or military bounty scrip. Where land is sold subject to a mortgage the buyer must premise not only to his seller, but also to the mortgagee, that he will pay the mortgage, and in every case where a land is mortgaged the certificate of title will hereafter be retained in the registry office until the mortgage is paid off. Writs of execution only bind land for two years, and a provision has been inserted cleaning off all old writs of execution which are declared to be and to have been effectual only during the period of the years from their date.

But perhaps the most important and far-reaching provisions of the new act are those dealing with estates, though the operation of which any person having an interest in land under agreement of sale can, so long as the payments under the agreement are kept up, or even where the buyer has failed to keep up his payments provided he makes good his default within 90 days after receiving notice, protect his interest under the agreement by means of filing a caveat. Provision is also made with respect to such agreements that may be assigned or transferred with the necessity of obtaining (and incidentally, paying for) the consent of the original owner of the land to the assignment, a provision, it will be remembered that was inserted because of the large sum which it was felt were charged by large corporations to the people of the province for performing the merely formal duty of assenting to transfer of agreements.

A very considerable number of minor changes have also been introduced to make the land system more available. The business of laying out roads throughout the province will be very much facilitated by the new provisions with regard to the filling of road plans, vesting the roads in the government, and immediately simplifying the work of the public works department of the province in this respect. Proper provision is also made for the preservation of existing rights, and the recognition of existing titles and the present officers are continued during pleasure.

On the whole the new Alberta Land Titles Act may fairly be said to combine the best features of similar acts throughout out, not only Canada, but Australia, where the Torrens system had its origin.—Ex.

Who is to Blame?

We have just been notified of another case of gross carelessness on the part of some of the C.P.R. or post office officials. Two hundred names were shipped from Calgary on Friday morning, Sept. 15, consigned to A. E. Ellis, and arrived here, as the C.P.R. employees say, on Saturday evening. Mr. J. A. Turner, the consignee, notified Mr. Ellis on Friday night that the names had been shipped, but as yet Mr. Ellis has not received the letter. Mr. Ellis also claims he was not notified of the arrival of the horses by the C.P.R. employees. The result was that the horses were allowed to remain in the car on Friday morning until Monday noon without either food or water. When found both the end and side door of the car were open. In consequence of this exposure and carelessness, one of the animals contracted colic, and died two days afterward. Mr. Ellis is anxious to find out who is responsible.

Nearly 20,000 young men came from Ontario this season to the central provinces of the west. There is no doubt that a great many more will take advantage of the second series of excursion trains running this month.

Canadian League Impracticable

Calgary, Sept. 15.—A meeting was held last night in the parlors of the Elgin hotel to consider the proposition of organizing a baseball league in western Canada. Manager Lamb of Winnipeg, Deacon White of Edmonton; Fuller, Kirby, Robinson and Mr. Davidson of Calgary were present. After considerable discussion with Lamb of Winnipeg, in regard to entering the Maroons from the North into the league as a member of an All Canadian league with them for west neighbors, Edmonton and Calgary, the conference came to the conclusion that the idea was impracticable for the coming season. However, assurances were received from Lamb that Winnipeg would not be long out of the league if steps were taken to form a league for next year. Secretary Kir-

Boils and Pimples

Red Rash, Eczema, in fact any skin disease, disfigures the complexion because the bowels are constipated—or because the kidneys do not rid the system of waste—or because the skin itself is unhealthy.

Ointments, salves and soaps are useless. Because the trouble is with the blood.

Owing to defective action of bowels, kidneys or skin, the blood becomes laden with impurities. It is these impurities—deposited by the blood—that make boils, pimples, and painful, disfiguring skin diseases. It is because the trouble is with the bowels, kidneys or skin, that FRUIT-A-TIVES cure these diseases.

Grafted To Edmonton For Two Years

Calgary Herald—Chief Justice Sifton returned on Saturday from Macleod, where he disposed of a number of criminal cases in which the accused were held in custody.

The case which aroused most interest was that of Frank Wilson, acting as agent of Dominion Lands at Macleod, who was charged with having obtained the sum of \$15 by false pretences. From the evidence it appears that the home owner applied for money to pay for a house to be built to his daughter, who was a domestic servant in the town. The girl went for the money to her mistress, who in turn consulted her husband, with the result that the matter was equirred into and it was discovered that the accused had represented that the home owner would cost \$15, which the home owner paid. The accused was found guilty. Mr. Harris, who defended, suggested that the interests of justice would be satisfied by the infliction of a fine.

The chief justice said he did not think so at all. Such offences as this were not to be tolerated in Western Canada, where intending settlers had to rely very largely on the integrity of the officials with whom they had to deal. The accused would be imprisoned in the Edmonton jail for the term of two years. Wilson, who was evidently much surprised, fainted in the dock on hearing the sentence pronounced.

Hon. Frank Oliver Returns
London, Sept. 13th.—Hon. Frank Oliver, Minister of the Interior, said to the Canadian, after a survey of the centres of immigration.

He said that wherever possible efforts would be made to improve the system. For the first time Canada had attracted more immigrants from Great Britain, including Ireland, than the United States.

What Canada wants, he said, is people from the land to go on to the land, and for that reason welcomed the American farmers. The Canadian army scheme was a possible effort would be made to improve the system. For the first time Canada had attracted more immigrants from Great Britain, including Ireland, than the United States.

A New Alberta Town
The latest addition to the towns of Alberta is called Exshaw. The town has been established by the Western Canada Cement Co. and is located on the main line of the C. P. R. just where it crosses the mountains at a point about 60 miles west of Calgary.

There is found a large body of fine rock that after long and hard work was found to be of the manufacture of a superior quality of Portland cement, with the further advantage of proximity to inexhaustible supplies of coal and shale, which are also used in large quantities in the production of cement.

The works when finished will represent an investment of \$1,000,000, which will give an idea of the magnitude of the undertaking. The buildings will be constructed throughout of cement with steel trusses carrying iron roofs, so that there is no repetition of the serious disaster that overtook the Calgary plant at the commencement of its operations. The buildings are in the form of a Y, the two branches being used for the reception of the coal and shale on the other branch and of fine rock on the other.

The Stonehouse Philosopher says the C. P. R. pay roll in that town is \$3,000 per month.

Seattle, Sept. 10th.—Captain Amundsen, the Arctic explorer, arrived in Seattle today and reports that he is confident he has at last succeeded in locating the north magnetic pole.

Gun Accident at Lacombe

Just at noon this day a gun accident happened in Lacombe that might easily have proved more serious than it did. George

Hayward, a farmer of South Hill Lake, accompanied by Mrs. Hay

ward, drove to town in a buggy and got out in front of Fortin's farm to unhitch. At this juncture a magazine shotgun lying in the bottom of the buggy was in some way discharged, the charge

blowing the back end of the buggy out and the shot scattering in all directions. Several people were within range and were hit by the flying shot.

John Patton received a painful wound in the left leg, and also one in the right leg, and was struck by other shot.

R. J. Scott received a wound in his right leg just below the knee. Bert Tunkan, a brick layer on the

Victoria hotel, was wounded in the neck. Jas Cox and W. McElroy were also struck by shot.

R. V. Gibbons, a commercial traveler from Calgary, had his hat punctured by shot.

Mr. Hayward says he has no idea at all what caused the gun to go off. He deeply regrets the accident and promptly offered to pay all expenses of medical attendance, etc., for the wounded.

Considering the nature of the accident, the town authorities accepted the offer. It is surely to be hoped that no further serious results may follow the gunshot wounds.

This will prove a lesson not only to Mr. Hayward but to many others who are equally careless with loaded guns, and for a while there will be fewer loaded guns laid in the bottom of vehicles.

Conference Discusses Union

Montreal, Sept. 14.—At the Methodist General Conference yesterday afternoon the church union committee presented its report. Briefly, the report states that the committee approved most heartily of the action of the joint committee on church union in extending to the church of England and the Baptist church an invitation to proceed in further consideration of the project of union, and authorized it to take part in the further work in the committee in the event of a further recommendation.

It further recommended that some day in November be appointed for divine direction in the matter and that the committee be directed to prepare immediately at the close of the joint committee's meeting in December a full statement of the work completed, with a view to laying it in printed form before the various organizations of the church.

The report will come up for discussion at a later period of the conference.

On one of his trips of investigation into the binder twine industry, Mr. Haystack, binder twine inspector for the Dominion, stated that never before had such quantity of binder twine been used in Canada as in sales to the farmers totaled \$4,000,000, more than \$300,000 over last year's sale. Of this amount 10,000 tons were made in Canada and 500 tons were shipped into the country from England.
